PRIMARY EXAMINER

**EXAMINER'S COMMENT and REASONS FOR ALLOWANCE**

**Priority under 35 USC § 120**

1. Acknowledgement is made of a claim for priority under 35 USC § 120 based on provisional applications 60/459,648 (filed April 3, 2003) and 60/447,277 (filed February 14, 2003).

**Drawings**

2. The replacement drawings were received on December 23, 2005. These drawings are approved.

**REASONS FOR ALLOWANCE**

3. The following is an examiner's statement of reasons for allowance:

In independent claims 1 and 14-16, the amendment overcomes the closest prior art of record, Liskov et al., "Replication in the Harp File System."

In independent claims 17 and 23, directed towards a file system the following features taken in combination with the remaining limitations in the independent claims are not found in and or are not obvious in view of the prior art of record,

**Claim 17,**

*"a master connected to the servers and configured to:" " identify the one server as a primary replica server when the one server has a lease for the replica of data" and " send a reply that identifies locations of the primary replica server and the secondary replica servers";*

**Claim 23,**

*"means for sending a data-modifying control signal that requests execution of the data modifying operation on the data associated with the data-modifying operation to the primary replica server and the secondary replica servers in a second sequence, where the second sequence is independent of the first sequence".*

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
